

# UNIFORM LAW LABELS

## LAW LABELS FOR STUFFED TOYS

### CURRENT FORMAT FOR STUFFED TOYS

The main toy enforcement states are Pennsylvania, Ohio and Massachusetts. Pennsylvania requires that a sample of the toy be submitted at the time of registration. Pennsylvania will only accept a PA toy registration number on the law label. We would suggest you apply for a PA toy registration number first, then apply to Ohio and Massachusetts.

Ohio and Massachusetts will accept the PA toy registration number. By getting the PA number first you will only have to print one registration number on our labels.

Percentages of the filling materials are not required on toy labels. The form, design and size of the label is left to the discretion of the manufacturer, provided that the information required on the label is clearly legible. You may print on both sides of a toy law label.

#### THIS IS THE REQUIRED INFORMATION FOR A TOY LABEL:

- All New Material
- (List of filling materials)
- Registration Number
- Country of Origin

#### EXAMPLE:

ALL NEW MATERIAL
(filling materials)
Reg. No..... Made in.....

Materials such as plastic pellets, foam beads, sand, gravel, rice, beans or other similar fillers must be inner bagged and listed on the law label. If the toy contains wire, plastic, wood, cardboard or any other stiffeners they must be listed on the law label.

**NOTE:** The following items are excluded from having to be listed on a toy law label: All rattles, squeakers, music boxes, mechanical and electronic devices contained inside the article.

LAW LABELS FOR STUFFED TOYS

**YOU MAY ALSO LIST OPTIONAL INFORMATION SUCH AS:**

- Company name & address
- Age Limits
- Washing instructions, etc.

**EXAMPLE:**

FRONT SIDE

Company Name
Company Address
Other Optional Info

BACK SIDE

ALL NEW MATERIAL
(filling materials)
Reg. No.....
Made in.....

**TOYS SOLD IN SETS:** When a toy is made up of a number of components and sold as a set only, the law label can be attached in two different ways. Each component may be labeled separately, or one label may be attached to the main component listing the filling materials in the different components.

**EXAMPLE:**

ALL NEW MATERIAL
Mat...Polyurethane Foam
Figures...Polyester Fiber
House...Plastic Stiffeners
Reg. No.....
Made in.....
